Career Objective

Aspiring Cybersecurity Analyst with a strong foundation in network security, encryption, and ethical hacking. Passionate about identifying vulnerabilities and implementing security measures to protect organizational data.

Technical Skills

Security Tools: Wireshark, Nmap, Metasploit, Burp Suite

Concepts: Cryptography, Firewalls, IDS/IPS, Threat Analysis

Programming: Python, Bash, C

Networking: TCP/IP, VPNs, SSL/TLS, SSH

Other Skills: Risk Assessment, Vulnerability Testing, Penetration Testing

Projects

Network Vulnerability Assessment – Scanned and secured a sample enterprise network using Nmap and Wireshark.

Encryption-Decryption System – Built a Python-based AES and RSA encryption model.

Phishing Detection Model – Used machine learning to classify phishing URLs.

Certifications

Ethical Hacking Essentials – EC-Council

Introduction to Cybersecurity – Cisco Networking Academy

Education

B.E. in Computer Science & Engineering – [Your College Name], 2026
